Set Information and recommendations:
Please read entirely before beginning and then make your own choices.

- ÿ Designs were created with Embird
- ÿ An EDR file is a color palette for Embird users, it is unnecessary for other softwares.
- ÿ Tested/Sewn on Janome 350
- ÿ Threads: 40 weight embroidery thread used in the upper, use the same color in your bobbin for best results.
- ÿ Please use thread colors you prefer.
- ÿ Needle: 12 point sharp needle.
- ÿ Stabilizer: 2 layers of Water Soluble Stabilizer

- ÿ Optional: Decorate with 3mm hot fix crystals or beads of your choice.
Beads can be hand sewn in place or hot glued (my preferred method).

Design Information: 4x4 hoop designs measuring under 100x100mm

Above: Two Color Single (0332)

Below: Three Color Single (0336)

Above: Two Color Combo (0332)

Below: Three Color Combo (0336)

Design Stitch Outs

Designs are provided for the 4x4 hoop, experienced users may carefully rotate & merge designs together.

Remember to use 2 layers of Water Soluble Stabilizer, hoop securely.

After embroidery, soak designs in water, changing water as often as needed. Soak thoroughly to remove all the water soluble, since these will be worn, you won't want sticky residue left.

When removing from the water, carefully lay designs flat on dish towel or dish drying mat. No fiddling with the lace as you're placing it. J

Let all designs air dry, these won't take long. J
The designs shouldn't need ironing.

Wrap band around toe to check for sizing, trim band to size.
Decorate as desired with hot fix crystals or beads.
Beads may be hot glued in place.

Options: Stitch band in place or instead, you may use a tiny drop of hot glue on the band's end, then place it under the flowers edge to finish forming the complete band...
(use tweezers to assist so you don't burn your fingers). Let glue set.
If needed, use tweezers to carefully remove any excess glue.

You're Done! Wear & Enjoy!
