# CRAYON HOLDER

## Supplies List

- Water soluble stabilizer (not the plastic kind)
- Compressed batting
- Embroidery Thread
- Fabric for top & fabric for lining
- 1 x Press stud
- 1 x decretive button for flap
- Note pad 11cm x 15cm (4.5" x 6")
- Wax or pencil crayons

TIPS & INSTRUCTION INFORMATION

- It is best to read the INSTRUCTIONS before you sew
- Fabric facing RIGHT SIDE UP UNDER HOOP or DOWN UNDER HOOP means that when you have placed the bottom fabric UNDER the hoop & you turn the hoop the right side up the bottom fabric should be facing right side UP or DOWN according to the said direction in the instructions
- Sewing STEPS in the PDF Instructions do not coincide with the sewing STEPS of the pattern. The bullets in each STEP of the PDF will be relatively close to the pattern steps on your flash drive or usb stick of your embroidery machine
- Use colour THREAD to match your fabric. Most of the patterns requires only one colour thread. I use the same colour thread on the top & in the bobbin
- FABRIC quantities varies in size of the project & according to your choice of fabric changes you make to your project
- Many of the COLOUR STOPS in the pattern are for step changes
- CUT OFF as close as possible (even if you sometimes snip the stitches) to your zigzag stitching & the batting stitching so that you don't have excess fabric & batting sticking out of your final satin stitching
- DO NOT REMOVE YOUR WORK OUT OF THE HOOP TILL IT IS COMPLETED
- Once you have completed a panel only cut the larger unwanted threads with a scissor and then singe gently with a lighter flame the fluffy unwanted threads (don't hold the flame too long against the satin stitches or they will burn)
- If you have detected an error in my PDF Instructions or I have not explained the steps clearly PLEASE do not hesitate to make contact with me via **support@oregonpatchworks.com**

I wish very much for you to enjoy stitching out my designs and be satisfied and proud of what you have sewn. Many thanks for choosing my designs. Sandra
