

Free Standing Lace Bells

- 1) Embroider 4 of each bell section to make one bell of that size.
- 2) Use washaway fibrous style stabilizer.
- 3) Rinse away stabilizer just enough for it to disappear. Leaving stabilizer residue in the lace will enhance firmness of the bell.
- 4) Let dry.
- 5) Press lightly with steam so the bell piece lays flat.
- 6) Assemble as follows:
- 7) Stitch two pieces together using a 2.5 wide zig zag stitch and matching thread. Start at the base of the bell.

- 8) Continue to tip of bell.

- 9) Stitch the other two pieces together as the first two. Then continue process until bell is complete. The last seam will be tight into the bell and may require hand stitching for the last few mm or ½ in.
- 10) Turn bell right side out and gently form.
- 11) String with ribbons or chord. A bell is also a nice addition to the inside.
