

Photostitch OPW Instructions colour combinations and copywrite.txt
Hi, thank you for your order. These patterns are my pride and joy, they sew out beautifully and I would love a picture of the project you use them for.

These patterns can be sewn out with any colour of your choice going from a very light colour to a dark shade of the same colour or you can make them different colours if you like.
I have made the frame appear as its own colour however I have found that I personally like the results of doing the frame the same as the medium colour I used.

The 4 colours and threads I like to use to have the Antique look are:

Background, Marathon 2118 or 2120 (a pale cream, a bit deeper than an off white)

The darkest colour should be next, Marathon 2285 (a dark brown)

The medium colour (I also use for the frame) is Sulky 1265 (Toast)

(E0125-The-Gift-of-a-Golden-Rose set medium, I selected a deep yellow (Marathon 1009)

The lightest colour, either Sulky 1255 or Marathon 1131 (skin colour)

(E0125-The-Gift-of-a-Golden-Rose set light, I selected a light yellow (Sterling Polyester Gunold 2017)

(Depending on what type I am doing I sometimes will use white as the lightest colour, especially if I am doing animals)

Whatever colours you choose it always turns out with a more professional look if you stick to similar colours, though you can use a metallic on the frames if you want to really set the frame off, but please be aware that if you have difficulty with metallic threads breaking, stippling stitches are very intense and metallic threads can be difficult to keep from breaking.

You will find that there are many jump stitches that can not be

covered up by the other embroidery stitches as the embroidery is formed from thousands and thousands of stippled stitches. You will need to snip out the jump stitches between colour changes. I wish there were away to work them into the pattern but because of the type of embroidery this is not possible to do.

These patterns do not resize well, they are like cross stitch where the resize programs only reduce a small amount of the stitches but also make the stitches smaller and you will have a problem with many needles breaking. Enlarging the patterns will make the stitches larger and you will loose the details of the designs.
