

## *Instructions - Face Mask – Option B*

Design Size	Outside Fabric	Inside Fabric	Side “tab” fabric	Elastic 3 or 6 mm	Finished size w x h
Small – b	5" x 6¼"	6¼ x 5"	None	7"	61.5 x 144.3 mm 2.4" x 5.7"
Medium – b	7⅛" x 6"	7½" x 6"	None	8"	80.4 x 178.4 mm 2" x 7"
Large - b	8½ x 8"	8½ x 8"	None	7½"	100 x 209 mm 4" x 8.2"

very quick just 2 pieces of fabric!

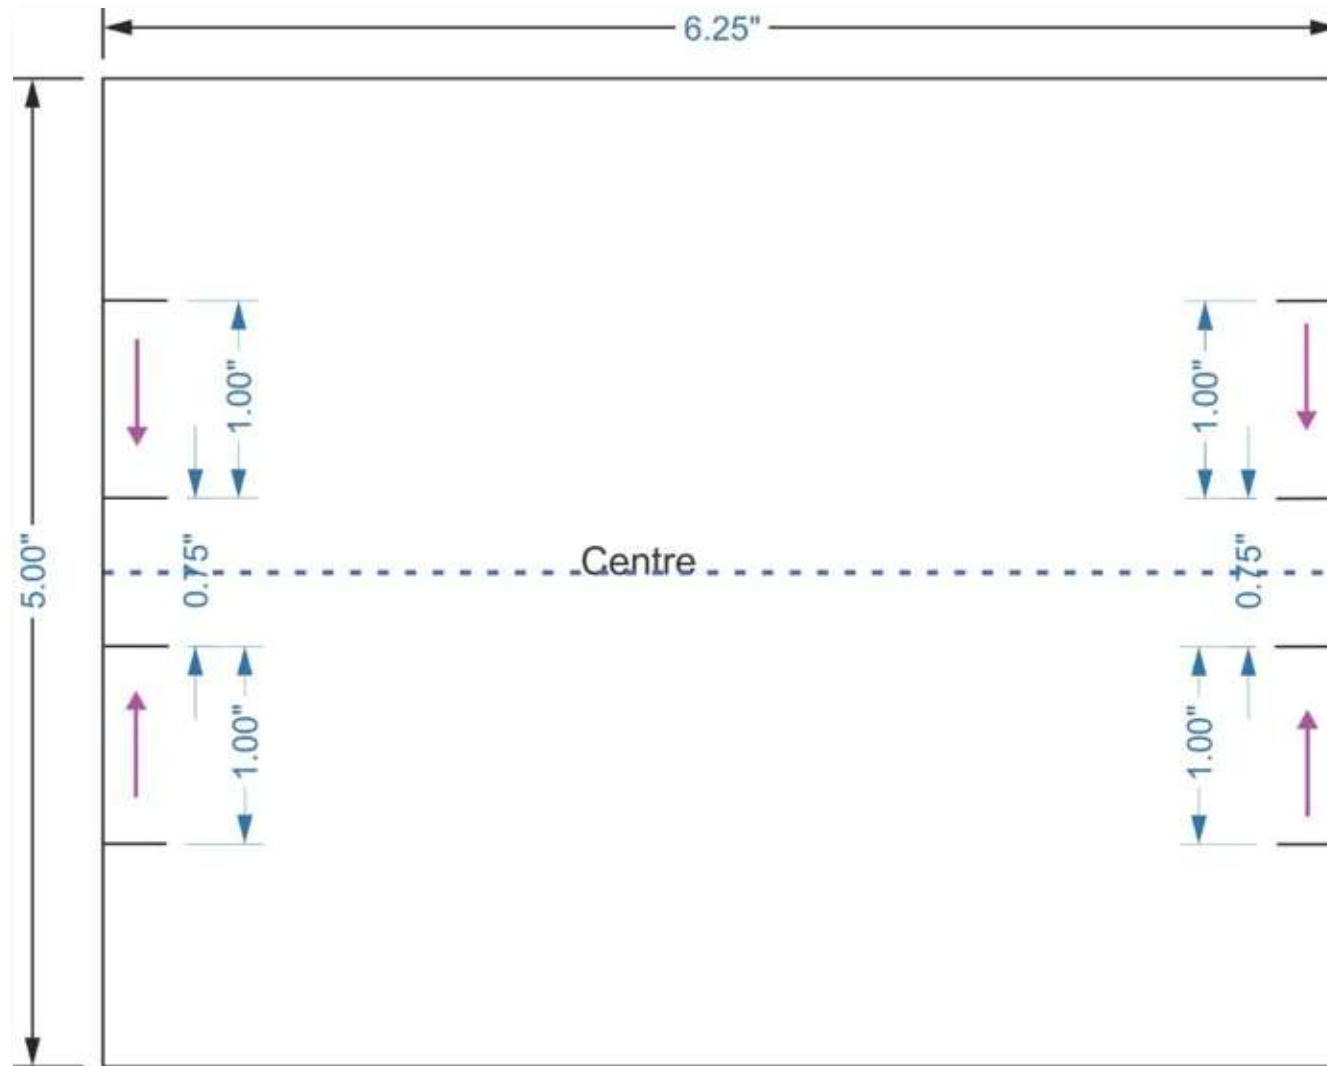

### **Preparation**

Cut all fabric pieces for the desired size. Place inside and outside fabric together and mark folding location as shown below. If you want to do the inside and outside separate you can – there is 2 stitch down stitches in the design – colors 2 & 3.

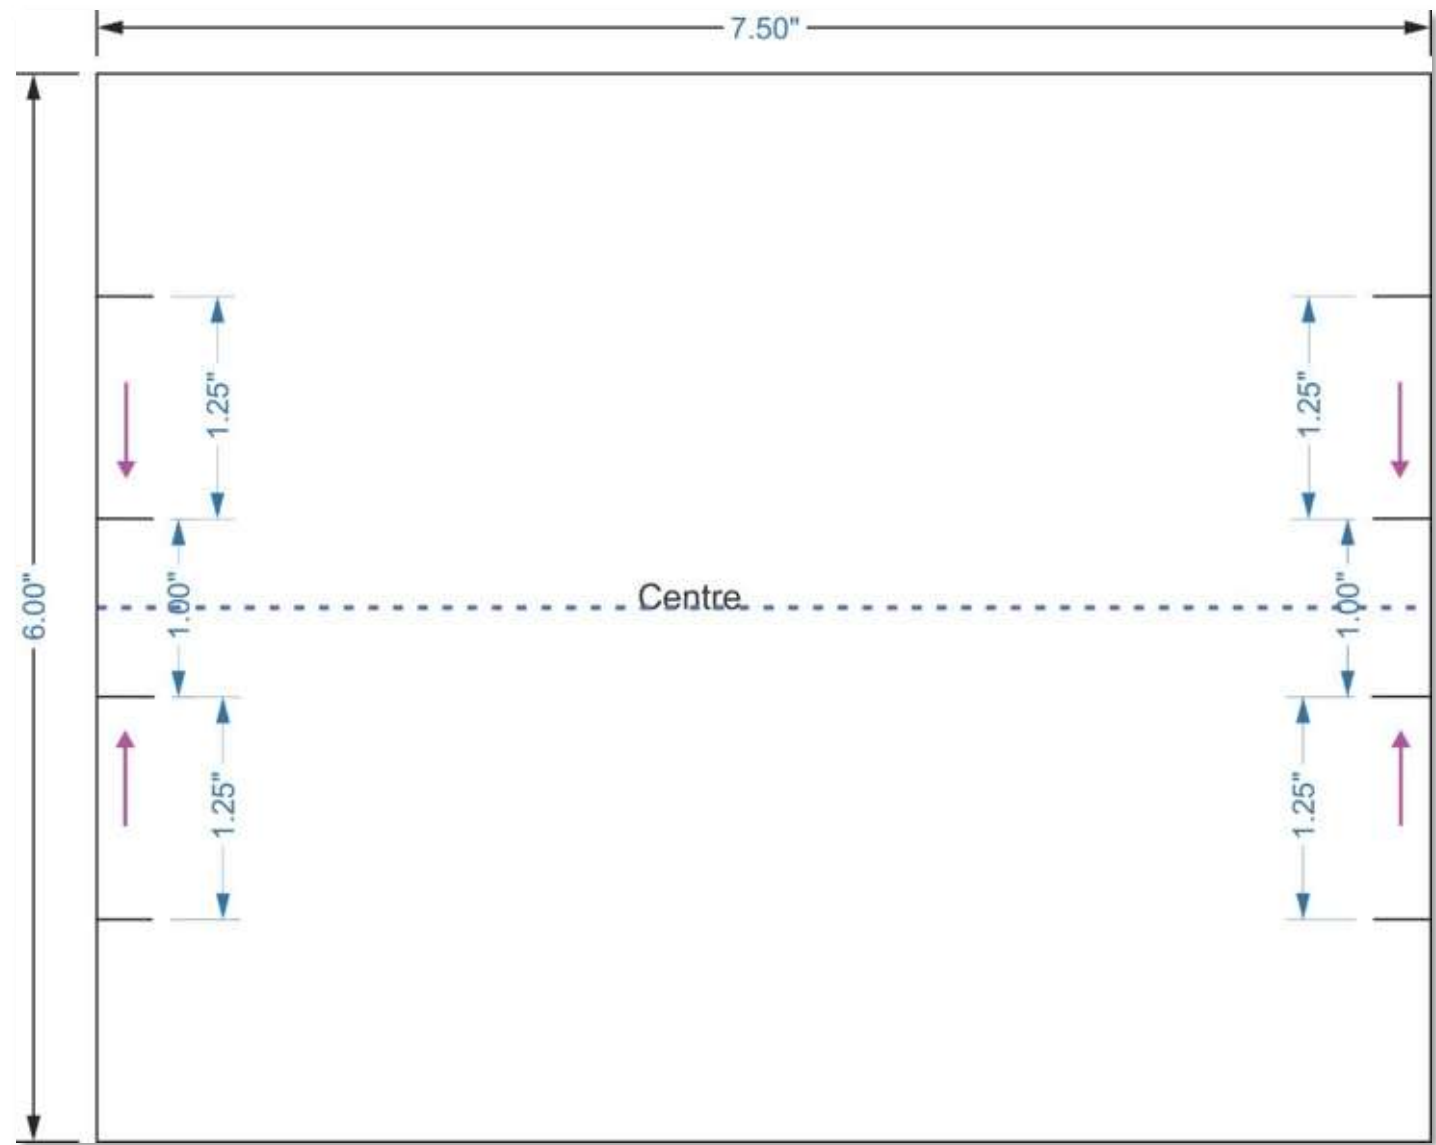

Small

Option b

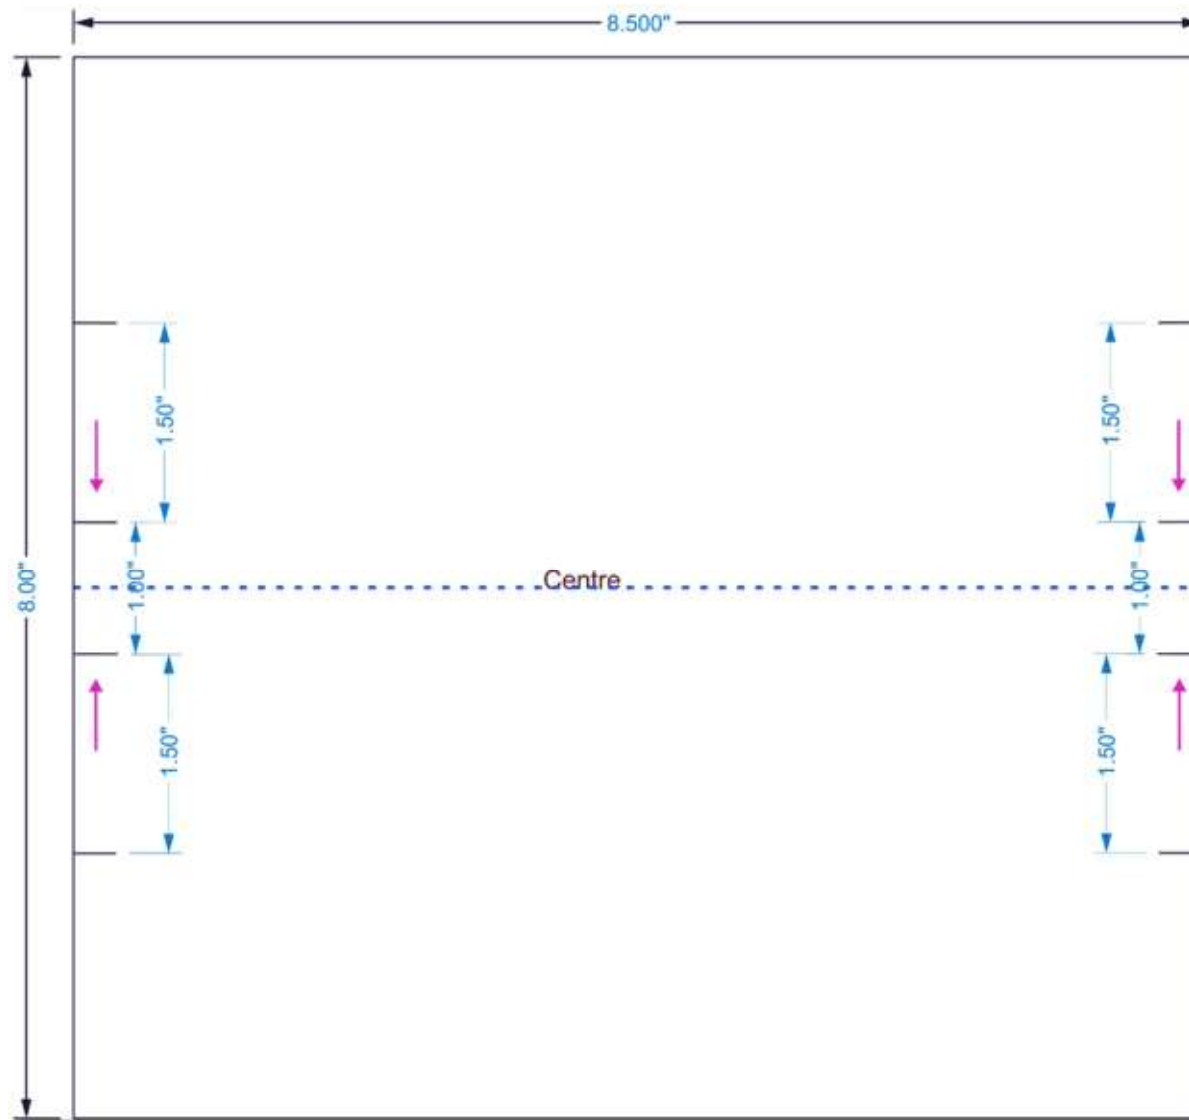

Medium

Option b

Large

Option b

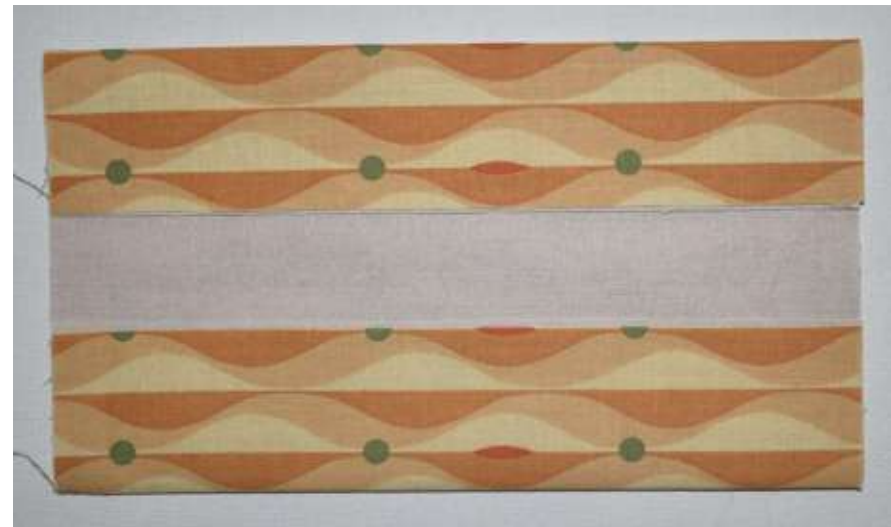

All photos shown are for size medium

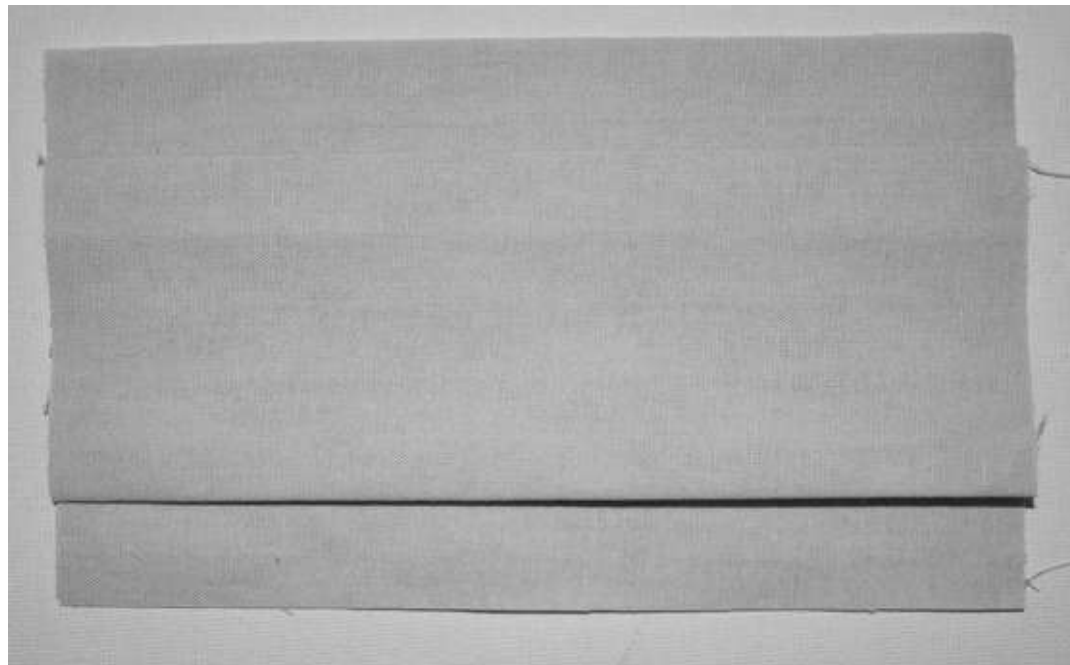

Mark Fabric

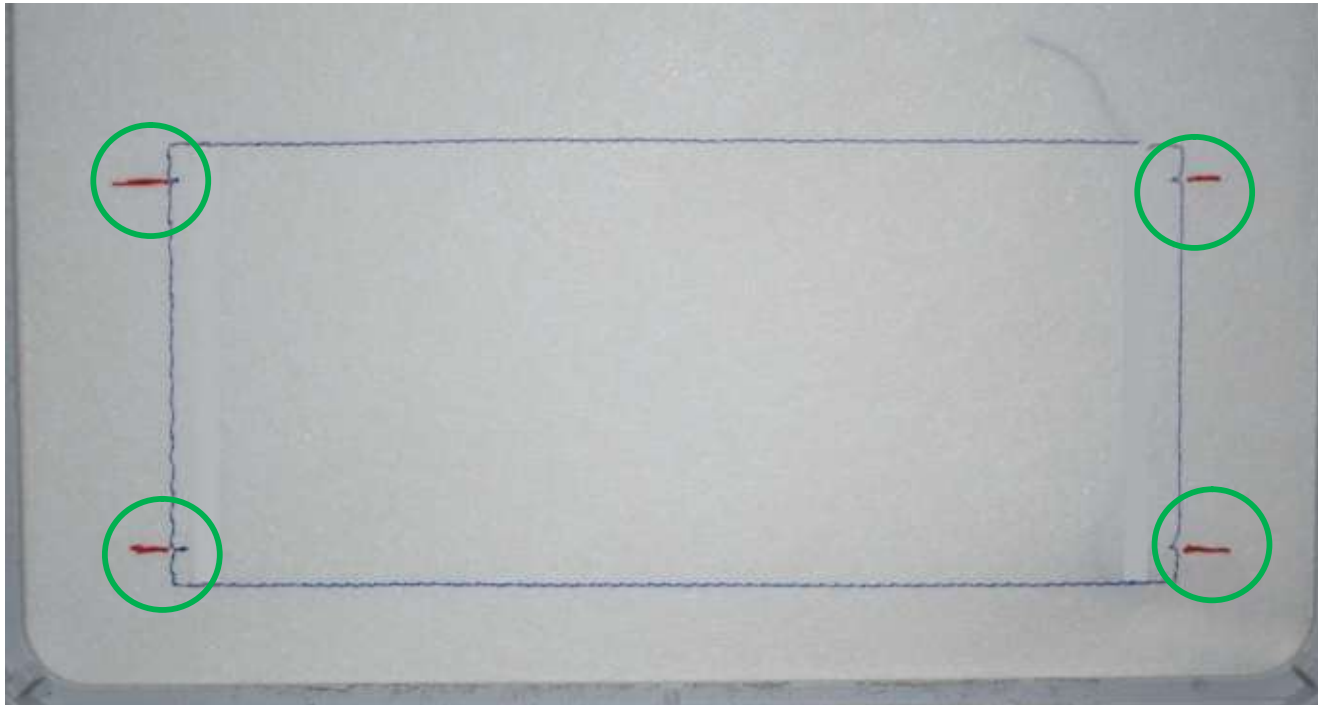

Fold top and bottom and iron flat.

Match just folded edge with remaining markers as shown below with the black arrow (fold towards center) and iron. I have used pins to hold these folds in place.

1. Load design with “b” in the name. Hoop tearaway or wash away stabilizer. Stitch color 1 – this is a placement line. Make 4 markers on the stabilizer as shown (green line circle) to help with placement of the elastic or ribbon in step 3.

2. Place fabric over all the placement line.

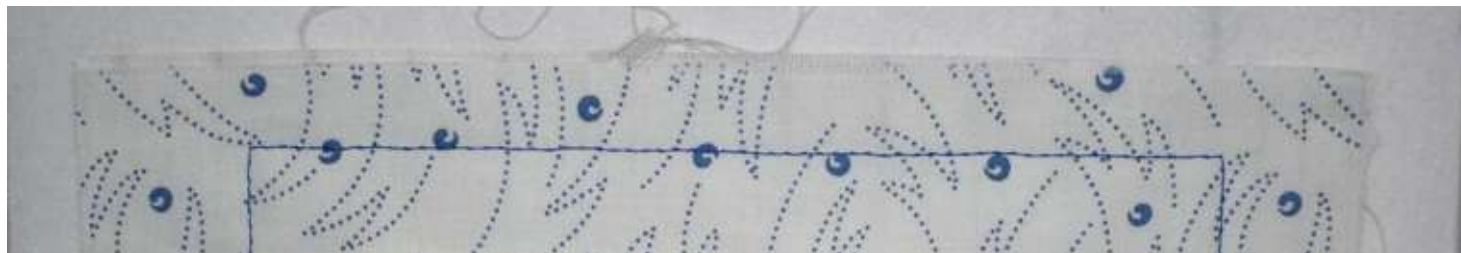

Recommend using a topping if you don't have a spring-loaded embroidery foot to prevent the embroidery foot from “catching” the folded fabric. Other option is to adjust the height of your embroidery foot.

Keep fabric in place with tape (My tape was running low so I used mostly pins, just be careful to keep pins out of the needles way!)

Color 2 and 3 is the same stitching if you want to separately stitch down the inside and outside fabric or add another layer. If stitching the inside and outside fabric together skip color 3.

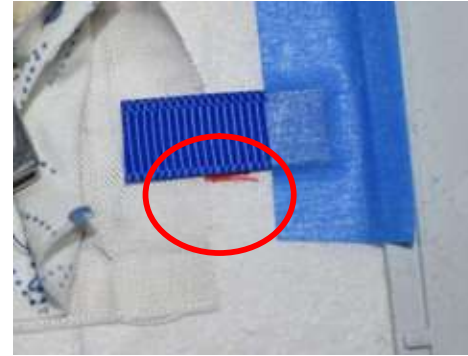

Change bobbin thread to be the same as top thread as some if it will show once the mask is completed. Stitch Color 2 & 3(optional)

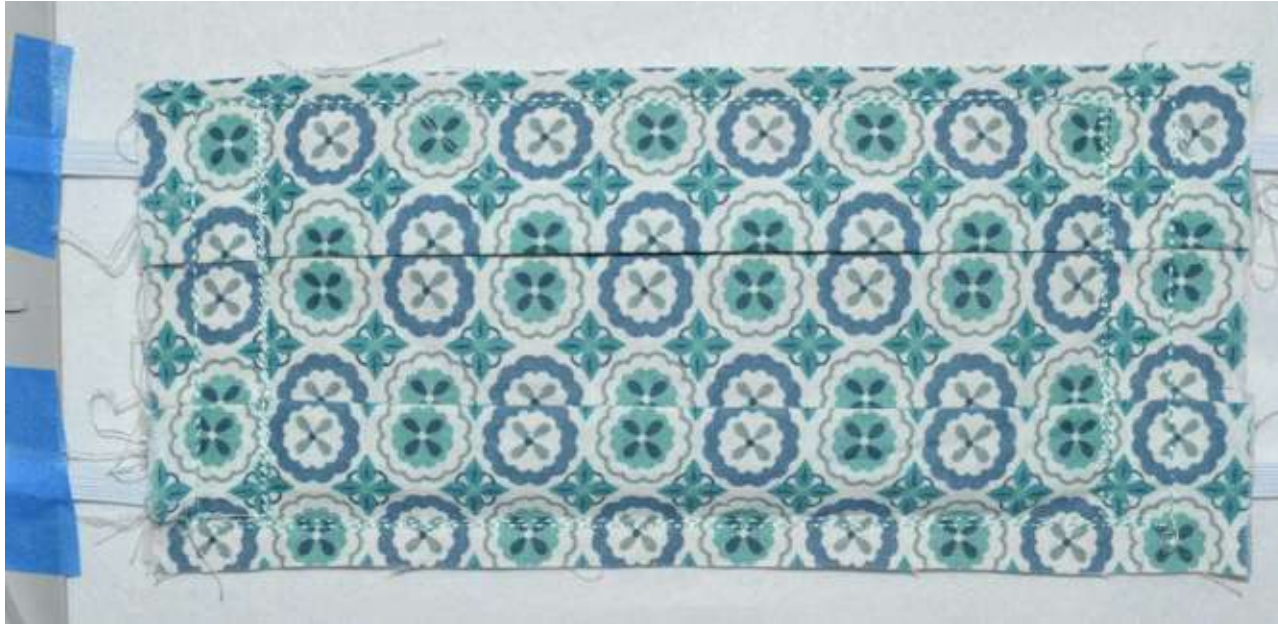

3. Place elastic between the 2 fabric layers, matching the markers made in step 1 as shown below and keep in place with tape. Elastic length is just a guide and can be changed to match the persons face you are making it for. The length of the elastic for small size was fitted on a 10yr old boy, the medium on a lady and the large on a man. Or as an alternative cut 4 pieces of ribbon 2 inches long, fold in half and place between the 2 fabric layers, matching the markers made in step 1 as shown below and keep in place with tape. Ribbon or braid can be threaded through the ribbon loops for securing the mask.

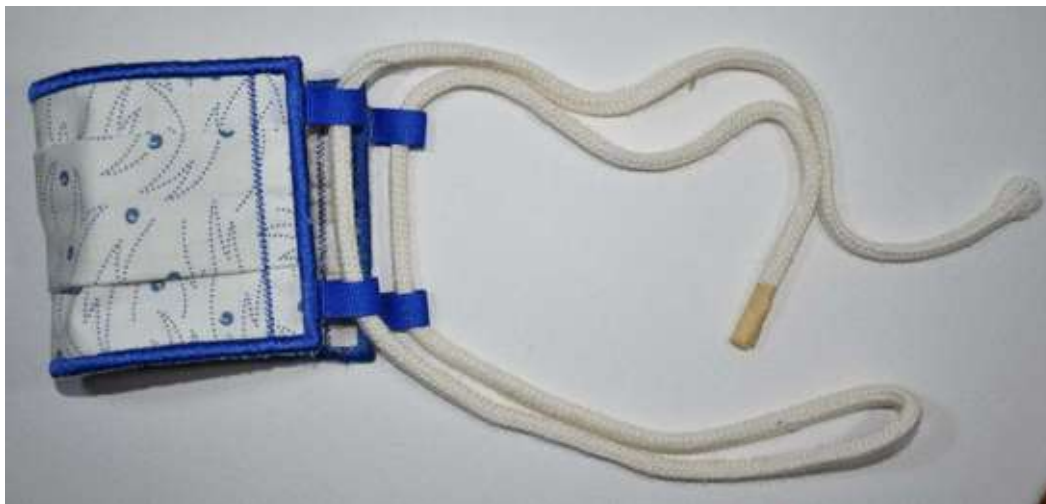

Change bobbin thread to be the same as top thread. Stitch color 4 for decoration

4. Stitch color 5. - Remove hoop from machine and trim fabric close to the stitch line, taking care not to cut the elastic.

5. Stitch color 6, satin stitch, to finish the facemask.
