Note: This is not a quilt in the hoop project. After finishing the embroidery, add additional decorations ie lace and/or ribbon etc of your choice. Add backing, quilting and binding to finish your project.

HOOPING INSTRUCTIONS

Scuba 4-way stretch fabric can't be hooped the traditional way.

If using a magnetic hoop, make a sandwich with the batting layered between the scuba and the stabilizer. Hold the layers together with temporary adhesive spray and/or use quilting pins as shown in photo below.

If you are using the pins, remember to remove them as you go as not to stitch over them and damage your machine.

If you don't have a magnetic hoop, hoop tear away and attach the above mentioned sandwich with temporary adhesive spray and stitch a stay stitch around the border of the frame to keep it in place by utilizing a simple frame on your embroidery machine. It is not included with this set.

BUTTONHOLE INSTRUCTIONS

After your project is done, lay it flat on your cutting mat and cut open the buttonholes with a sharp craft knife taking care not to cut the surrounding satin stitches. Cut the opening just large enough for the ribbon to pass through snugly. Glue the ends of the ribbon to the back with a good quality fabric glue extending the ends of the ribbon past the embroidery as to stitch it in place when quilting your quilt.
