Elsa5x7sunshine	5.03x7.07 inches	14,978 stitches	9 thread changes	7 colors
elsa6x10sunshine	6.28x9.09 inches	18,736 stitches	9 thread changes	7 colors
	MARATHON	RAYON	POLYESTER	For your own thread numbers
	1. Leaf Green	These are the stems. Use any color green thread		
	2. Applique Position	Stitches outline to show where to place appliqué fabric for the sunflowers. Use the same colour thread as for the sunflowers.		
	3. Applique Material	Stitches appliqué fabric into position. Use the same colour thread as for the sunflowers. Take the hoop out of the machine and cut the excess fabric not too close to the outline stitching. Put the hoop back on the machine and proceed with the next step.		
	4. Harvest Gold	This is the satin stitch outline of the sunflowers. On some of my flowers I used black thread for the detail, especially when you use black fabric as your background fabric.		
	5. Orange	This is the detail on the sunflower petals. Use a darker shade thread that will show off well on the petals. This can also be embroidered in black.		
	6. Applique Position	Stitches outline to show where to place appliqué fabric for the flower centres. For steps 6 to 8, us the same thread colour that will match the fabric for the flower centres.		
	7. Applique Material	Stitches appliqué fabric into position. Use the same colour thread as for the flower centres. Take the hoop out of the machine and cut the excess fabric not too close to the outline stitching. Put the hoop back on the machine and proceed with the next step.		
	8. Grey	This is the satin stitch outline and the detail on the flower centres. You can also use black or brown thread, as long as it matches the fabric you have chosen.		
	9. Black	Text - You can also use another thread colour.
