

JHB421 design detail

This is a mini set that allows you to make a doily with the pie shape panel that measures approx 14 inches (35.5cm) in diameter. Eight pie shapes makes up each doily. With it comes 2 matching coasters that measures 5.73 inches (13 cm) in diameter. However, I have opted to make a runner with this one and here you can go as long as you wish. The width of my runner ended up being approx 9 inches (23 cm) and the length 25 inches (63 cm). This is an in the hoop project and you can have so much fun with your fabric and thread colours.

Height:	179,2 mm
