

JHB445 ITH Road Trip Kit

A very handy item to have in your bag when travelling.

This project are done in the in the hoop method. It is done in panels which gets joined with your normal sewing machine.

The project comes in two sizes, one for the kiddies bruches and one for the larger grown up tooth brushes.

Behind the 'doors' which holds the facecloth in place is a hidden pocket for smaller items like ear buds etc.

The toothbrush side has got two partitions, one for toothpaste and one for a toothbrush etc. or what ever you wish to place in them. The pocket here has got a clear vinyl pocket with a lace or ribbon trim with decorative stitches at the top edge and a toweling or waffle weave lining. The larger kit has got extention panels to increase the length of the holder. The finished size of the smaller kit is approximately 7 inches (18 cm) tall, 5 inches (13 cm) wide and 1 inch (2,5 cm) deep. The larger kit is approximately 8.25 inches (21 cm) tall, 5 inches (13 cm) wide and 1.5 inches (4 cm) deep. The base panel can be interchanged between the two sizes, no problem.
