

## JHB464 design detail

This is an in the hoop project and quite quick stitching and thread colours are purely going to depend on your choice of fabrics. I chose to do my stars in hessian and I used a closely woven one. If the weave is too loose your stitching will fall in between the weave. Four of the designs has got an additional applique centre and here you can go for bling, or Christmas fabrics or just leave the inside hessian in place, no problem. Just have fun with making these. Use them as coasters, tree ornaments, gift tags or put them in a wreath to celebrate the festive season.
