

JHB491 design detail

This is a set of fun quilt blocks surrounded by a free standing lace border.

This is a set of 4x4 blocks that are dainty and makes quite an impression when joined in what ever project you wish to make. Beautiful for runners, place mats, candle mats or coasters. These designs can be done in one colour or different colours, which ever strikes your fancy or décor.

The blocks are easy to make and quick to sew. After your blocks are completed, they are assembled on your normal sewing machine. The inside of the blocks can all be done in different colours, but I would recommend that the outside lace border be done in the same colour for all your blocks. The blocks can be assembled in straight rows or on point. Choice is yours.
