

## JHB504 design detail

This is an in the hoop project where the panels are made on the embroidery machine but the bag is assembled on your normal sewing machine.

The side panel zip is inserted in the panel with your embroidery machine and the top zip is inserted with your normal sewing machine.

The front panel has an outside pocket with a zip and the back panel has a inside pocket. The finished size of the bag is approximately 6,6 inches (16 cm) tall, 6,5 inches (16 cm) wide and 2 inches (5 cm) deep. This bag is decorated with stem stitch quilting detail and the side panels also have little hearts puffing up and outlined with stem stitch detail.
