

JHB519 design detail

This set consists of two handy caddies that can be used for crafts, storage or gift bags.

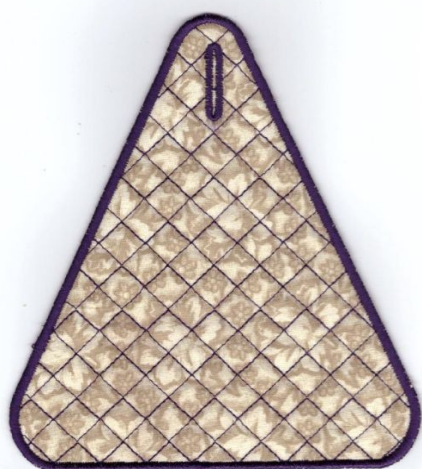

Play with your fabrics and threads and just have fun. The finished size of the base is approximately 5 inches (13 cm) wide, 6,5 inches (17 cm) long and 3,75 inches (9 cm) deep. The caddy angle slightly to the top. There are two options included in this set. The one has piano key detail with stitching detail inside the keys on the side panels and the other just plain quilting detail where you let your fabric do the talking. Included in the set is a 3D flower which you can add where ever you wish for some added decorative detail. The handle is attached with some buttons of your choice. Buttonholes are part of the side panel detail. Fill them with craft items of your choice and use the basket as the gift basket or make some for yourself for your own craft items. The caddy is made in panels and then assembled with your normal sewing machine.
