**Be careful to read the instructions. The colors that appear on your screen do not always respond to the colors that you shall use, some color changes only serve as color stops. As a stabilizer I use either Solvy or Vilene. Hoop your fabric with two layers of Solvy or one layer of Vilene (fabric on top, stabilizer under fabric). It is advised not to use low density fabrics. When your embroidery is finished, rinse out the stabilizer very gently under flowing water or by soaking the fabric in water bath for a while. Do not rub the embroidery, you could distort the web created by threads and it would not look nice. Lay flat and let dry. For nice result use ironing spray starch and iron carefully.**
